**Reproduction rights statements from January to March 31 will be accessible in the old reproduction rights portal.**

**Royalty Calculators** and **Unidentified Performances Claiming** will be available in the new portal by July 2026. Until then, there is a royalty calculator cheat sheet in the Member Resource section of the new portal along with a spreadsheet of current unidentified performances available for claiming.

We'll update you before April on how and when you'll begin accessing your statements in the new portal.
